

About Journal

Journal of Management for Global Sustainable Development (JMGSD) is a peer reviewed refereed journal published annually under the aegis of **Times Research Consultants** as a nonprofit journal of research to encourage the researchers to promote quality education at national and international level.

This annual academic research journal publishes theoretical and empirical articles dealing with national and international issues in the areas of Economics Management, Education Management, Strategic Management, Organization Theory, Organizational Behavior, Business and Society, Human Resource Management and other related fields of management sciences.

JMGSD is dedicated to furthering knowledge that aids in the productive application of information technology to human organizations and their management, and more broadly, to improved economic and social welfare and quality education. High quality work from any analytical or research tradition is welcome, including theoretical, analytical, and empirical studies. Submissions that build on all three are especially encouraged. Reviews and syntheses of prior contributions to relevant subjects are also welcome, provided they make significant contributions to ongoing research streams in the information systems for research community.

The editorial policy of (JMGSD) is based on the belief that research, technologies and techniques for the collection, storage, management and use of information of all kinds are a foundation of economic, social and sustainable development, and their successful use and subsequent effects are a vital arena for rigorous research of all kinds.

Subscription

For the sake of said purpose, the JGSD is considerably subsidized not only for Pakistani subscribers but also for the national of LDCs (least developed countries). LDCs include economies annually listed by World Bank in World Development Indicators (WDI).
